Erica multiflora

Cistus albidus

Cistus salviifolius

Geranium sanguineum

A photograph of a pond featuring a dense cluster of Nymphaea alba (white water lilies) in the foreground. The lily pads are large, round, and green, with several white flowers in various stages of bloom. The water is calm, reflecting the surrounding greenery and the sky. In the background, there are tall, thin reeds and other aquatic plants along the shoreline. The overall scene is peaceful and natural.

Nymphaea alba

Lavandula dentata

Thymus vulgaris

Vinca major

Helichrysum stoechas

Convolvulus sabatius viviani

Coronilla glauca valentina

Dorycnium pentaphyllum

Myrtus communis

Viburnum tinus

Celtis australis

Rhamnus alaternus

Punica granatum
